1 Section 1. Section 455B.133, subsection 8, paragraph a,
2 Code 2011, is amended to read as follows:

3 a. (1) Adopt rules consistent with the federal Clean Air
4 Act Amendments of 1990, Pub. L. No. 101-549, which require
5 the owner or operator of an air contaminant source to obtain
6 an operating permit prior to operation of the source. The

10 revoked, reissued, or denied. For sources subject to the
11 provisions of Tit. IV of the federal Clean Air Act Amendments
12 of 1990, permit conditions shall include emission allowances
13 for sulfur dioxide emissions. The commission may impose
14 fees, including fees upon regulated pollutants emitted from
15 an air contaminant source, in an amount sufficient to solely

24 section 408 of the federal Act. The fees collected pursuant
25 to this subsection shall be deposited in the air contaminant
26 source fund created pursuant to section 455B.133B, and shall
27 be utilized solely to cover all reasonable costs required to
28 develop and administer the programs required by Tit. V of the
29 federal Clean Air Act Amendments of 1990, Pub. L. No. 101-549,
30 including the permit program pursuant to section 502 of the
31 federal Act and the small business stationary source technical
32 and environmental assistance program pursuant to section 507
33 of the federal Act.

34 (2) Not later than January 1, 2012, fees assessed under this
35 subsection shall be sufficient solely to provide for the costs

1 of developing and administering the operating permit program
2 described in this subsection, which costs are limited to all
3 of the following:

4 (a) Reasonable costs of preparing generally applicable
5 regulations or guidance regarding the permit program or its
6 implementation or enforcement.

7 (b) Reasonable costs of reviewing and acting on any
8 application for a permit, permit revision, or permit renewal,
9 including the development of an applicable requirement as part
10 of the processing of a permit or permit revision or renewal.

12 administering the permit program, including the supporting
13 and tracking of operating permit applications, compliance
14 certification, and related data entry.

15 (d) Reasonable costs of implementing and enforcing the
16 terms of an operating permit, not including any court costs or
17 other costs associated with an enforcement action, including
18 adequate resources to determine which sources are subject to
19 the program.

25 (h) Reasonable costs of providing direct and indirect
26 support to sources under the federal Small Business Stationary
27 Source Technical and Environmental Compliance Assistance
28 Program pursuant to section 507 of the federal Clean Air Act.

30 be used for costs associated with a construction permitting
31 program, including general ambient air quality modeling or
32 monitoring under the program.

33 (4) Fees shall not be assessed for any permitting program
34 under this subsection when the program exceeds in any way the
35 requirements of the federal Clean Air Act Amendments of 1990,

1 Pub. L. No. 101-549.

2 (5) For the fiscal year beginning July 1, 2011, and each
3 fiscal year thereafter, the Tit. V fee required pursuant to the
4 federal Clean Air Act Amendments of 1990, Pub. L. No. 101-549,
